

# Giseop KIM

## Assistant Professor

Department of Robotics and Mechatronics Engineering, DGIST

Joint appointments: Department of Artificial Intelligence; Mechanical Engineering Track

Leader/Director, [Autonomy and Perceptual Robotics Lab \(APRL\)](#)

## Research Group

**Research mission.** APRL advances spatial intelligence and robot world models to enable autonomous robots to navigate, reason, and learn from experience in the real world.

### Research directions.

- **Spatial intelligence for navigation:** SLAM 2.0 for the Robot Web era; neural map representations; human-robot interactive visual-language navigation; long-term and multi-robot autonomy.
- **Embodied reasoning and world models:** Reasoning for robots; generative AI for mobile robot navigation; memory-augmented spatial intelligence; robot world models.

**Research profile.** Robotics researcher working at the intersection of simultaneous localization and mapping (SLAM), spatial and physical AI, 3D perception, sensor fusion, long-term autonomy, and visual-language robot navigation. Current research investigates memory-augmented spatial intelligence, shared robot experience, embodied reasoning, and robot world models for robust real-world navigation.

**Lab composition.** Autonomy and Perceptual Robotics Lab (APRL), DGIST. Founded December 2024. Current full-time group: one postdoctoral researcher, three doctoral researchers (including two integrated M.S./Ph.D. students), and four M.S. students, with undergraduate interns and external collaborators across robotics, perception, and AI.

## Academic Appointments and Professional Experience

|                     |                                                                                                                                                                                                         |

## Invited Talks and Tutorials

### Conference

|                                |                                                                                                                                                                                                                                  |
|--------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Sep. 27, 2026<br>International | “From Maps to Memory: Bridging the Perception–Reasoning Gap for Long-Term Robot Navigation,” Workshop on Bridging Navigation, IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS 2026).                   |
| Jul. 3, 2026<br>Domestic       | “Visual Language Multi-robot SLAM,” Early-career Researcher Award Session, 41st Annual Conference of the Institute of Control, Robotics and Systems (ICROS 2026), Daegu.                                                         |
| Feb. 6, 2026<br>Domestic       | “IMU Basics and Inertial Aided Navigation,” Spatial AI Tutorial Organizer and Speaker, Korea Robotics Society Annual Conference (KRoc 2026), Pyeongchang.                                                                        |
| Feb. 5, 2026<br>Domestic       | “Memory-Augmented Spatial Intelligence for Autonomous Robot Navigation,” Early-career Researcher Award Session, Korea Robotics Society Annual Conference (KRoc 2026), Pyeongchang.                                               |
| Feb. 5, 2026<br>Domestic       | “CoT, Scene Graphs, and Recent Paradigms for Mobile Robot Navigation: A Short Survey and Real-World Lessons,” Special Session on AI-based Autonomous Systems, Korea Robotics Society Annual Conference (KRoc 2026), Pyeongchang. |
| Jan. 19, 2026<br>International | “An Invitation to 3D Vision, Spatial AI, and Physical AI,” Invited Tutorial, International Conference on Electronics, Information, and Communication (ICEIC 2026), Macau.                                                        |
| Oct. 30, 2025<br>Domestic      | “Physical AI for Smart Factory: Humanoid, Sensing, and Spatial Intelligence,” Fall Conference of the Korean Fiber Society, Busan.                                                                                                |
| Aug. 15, 2025<br>Domestic      | “Generative AI for Mobile Robot Navigation,” AI Robotics KR Conference: Human and AI Robotics Together, Seoul.                                                                                                                   |
| Jul. 18, 2025<br>Domestic      | “Generative AI for Mobile Robot Navigation,” Joint Summer School on Image Understanding and Image Processing, Institute of Electronics and Information Engineers, Seoul.                                                         |

### University

|                           |                                                                                                                                                                                |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Jul. 24, 2026<br>Domestic | “Bridging the Perception–Reasoning Gap for Long-Term Robot Navigation (Feat. the Research Journey),” Invited Talk, Korea Advanced Institute of Science and Technology (KAIST). |
| May 28, 2026<br>Domestic  | “3D Perception, Language, and AI for Human-Robot Interactive Navigation,” Ewha Womans University.                                                                              |
| Apr. 2, 2026<br>Domestic  | “Memory-Augmented Spatial Intelligence for Autonomous Robot Navigation,” Hanyang University ERICA.                                                                             |

- Dec. 10, 2025  
Domestic “SLAM, Spatial AI, and Human-Robot Interactive Navigation,” Department of Intelligent Robotics, Sungkyunkwan University, Suwon.
- Dec. 9, 2025  
Domestic “Robotics and Spatial AI for Construction,” Department of Civil and Environmental Engineering, KAIST, Daejeon.

## Research Institute

- Sep. 4, 2026  
Domestic “Lidar Inertial SLAM for Spaceship Docking,” Invited Seminar, Korea Aerospace Research Institute (KARI).
- Aug. 19, 2026  
Domestic “From Maps to Memory: Bridging Perception and Reasoning for Long-Term Autonomous Navigation,” Invited Seminar, Korea Institute for Robot Industry Advancement (KIRIA), Seoul.
- Jul. 30, 2026  
Domestic “Geometric 3D Vision Made Easy? – The DUS3R Family and Its Evolution,” Invited Seminar, Electronics and Telecommunications Research Institute (ETRI), Daegu-Gyeongbuk Regional Research Division.
- Mar. 24, 2026  
Domestic “Memory-Augmented Spatial Intelligence for Autonomous Robot Navigation,” ETRI Daegu-Gyeongbuk Regional Research Division.
- Dec. 8, 2025  
Domestic “SLAM, Spatial AI, and Human-Robot Interactive Navigation,” Department of Industrial Machinery DX, Korea Institute of Machinery and Materials, Daejeon.
- May 28, 2025  
Domestic “Spatial AI, from the 2000s to 2025: The Evolution of Spatial Intelligence and the Future of Robotics,” ETRI Daegu-Gyeongbuk Regional Research Division Mid- to Long-term Research Roadmap Meeting, Daegu.

## Industry

- Jun. 2, 2026  
International “What, When, and Why Visual-Language Navigation?,” Private Meetup at the IEEE International Conference on Robotics and Automation (ICRA 2026), URobotics.
- Jun. 13, 2025  
Domestic “Lessons from Translating Research into Products and Services,” SLAM and Perception Seminar, Hyundai Motor Company Uiwang Research Institute.

## Public Sector

- Feb. 2, 2026  
Domestic “Daegu’s Innovation, Moving Towards a Robot and Future Mobility City,” Dalseo-gu Office Monthly Meeting Special Lecture, Daegu.
